MORD Close Reading Diagram

Objective: Read closely on p. 2 about paragraphs 1 and 2 to see what the setup of the rooms were like during the party. Analyze the text for color symbolism.

Directions: Use p. 2 paragraphs 1 and 2 to create and label a diagram of Prince Prospero's party. You must use color and be as accurate as possible. Follow guidelines and guiding questions to help create your diagram. If working with a partner, each must write what they contributed to the diagram.

Diagram must:

- Include cardinal direction indication for the order of the rooms (North, South, East, West)
- Lighting/ general shape of the hallways/ space that connects the rooms
- Put the colored rooms in order.
- Label/ draw symbols for objects in some rooms (purple room and *Black room*)
- Include/ label windows in each room and color them accordingly.

Remember: This is not a normal party or normal castle. Our main character has a "love of the bizarre."
